HISTORY:

THE CYLONS QUICKLY REALIZED THAT THE REMAINING COLONIALS WERE ADAPTING TO THEIR USE OF RAIDER-SUPPORTED CENTURIONS. IN AREAS WITH GOOD ROAD SYSTEMS, THE HUMANS WOULD OFTEN USE FAST VEHICLES TO ESCAPE THE CENTURIONS, THEN ABANDON THE CRAFT WHEN THE AIR COVER ARRIVED. THE USE OF OFF-ROAD MOTORCYCLES AND ATVS ALSO GAVE HEIGHTENED MOBILITY IN RURAL AREAS, WHERE THE COLONIALS WERE BETTER ABLE TO HIDE, AMBUSH, AND SURVIVE WITH POPULATIONS SCATTERED TO THE POINT THAT NUCLEAR ATTACK WAS IMPRACTICAL.

AS A RESULT, THE CYLONS MATED STRIPPED-DOWN CENTURION TO MODIFIED MONSTER 1100 STREET AND 1100 HYPERMOTARD DUAL SPORT MOTORCYCLES, CREATING AN INTERCEPTOR UNIT FOR SUCH ENCOUNTERS.

GYROSCOPICALLY BALANCED, THE CENTURION FRAMES ARE CAPABLE OF "STANDING UP" TO REACT TO ENCOUNTERS, AND THEY STILL HAVE THE USE OF THEIR HANDS, ALTHOUGH THIS IS IMPEDED BY THE HEAVY CHAINGUNS SLUNG UNDERNEATH THEIR FOREARMS.
